The Historic Watermill & Flour Business

The majestic Grade II listed watermill stands as the historical & commercial cornerstone of the estate, a testament to craftsmanship dating back to 1575. This substantial stone & brick building, spanning three floors, retains original features that evoke its rich past while housing fully operational milling equipment. The picturesque mill has been sympathetically developed to have a blend of traditional old & new machinery to produce high-quality flour under the respected Bacheldre Watermill brand. This established business benefits from supply contracts with prominent retailers such as Waitrose, alongside a loyal network of independent delicatessens and health food suppliers, with considerable potential for further market penetration & product diversification. The ground floor of the mill transforms

during the warmer months into a popular pizza kitchen, serving delectable stone-baked pizzas to appreciative campsite guests and local residents alike, while generating additional revenue.

The Thriving Campsite

The well-established & popular campsite represents a significant and reliable income stream for the estate. Licensed to accommodate up to 38 pitches, including 18 equipped with convenient electrical hook-ups, the site attracts a steady influx of tourists seeking a peaceful & scenic rural retreat. Modern & well-maintained amenities include a detached, timber-clad shower block, refurbished in 2021, featuring separate and well-appointed male and female changing rooms with WC's and invigorating showers, a dedicated family/disabled shower room for added convenience, as well as practical and easily accessible areas for dishwashing and responsible waste disposal. The strategic location within a region renowned for its natural beauty and outdoor activities ensures a consistent stream of visitors, particularly hikers and cyclists drawn to the numerous trails and quiet country lanes that crisscross the landscape, providing a solid foundation for the campsite's continued success.

The Charming Owner's Cottage

Nestled as the first welcoming structure upon entering the estate, the charming owner's cottage, a quintessential white stone residence, offers a comfortable & characterful retreat. The ground floor features an inviting hallway leading to a practical shower room. Adjacent lies the spacious country-style kitchen, the heart of the home, boasting cream timber cabinetry, a Rangemaster stove, exposed stone walls whispering tales of the past, & original timber beams adding rustic charm. A glazed door provides direct access to the private rear garden, while steps ascend to the generously sized living & dining room. This characterful space showcases exposed stone on opposing walls and two inglenook fireplaces, one with a working log burner for cosy evenings. Upstairs, three comfortable double bedrooms and a well-appointed family bathroom, complete with a jacuzzi bath and separate shower, provide ample private space. This delightful cottage offers a tranquil haven within the bustling estate.

The Granary House: Untapped Potential

The substantial Granary House, a significant structure within the estate, is currently configured into four self-contained apartments, comprising two spacious two-bedroom units and two charming one-bedroom units. The upper floors of these apartments boast impressive vaulted ceilings adorned with exposed timber beams in the open-plan kitchenette and living areas, creating a sense of space and character. While these apartments currently require a comprehensive program of refurbishment, they present a remarkable opportunity to generate substantial additional income through the growing holiday let market in the area or by offering long-term rental options (subject to relevant permissions). The size and adaptable layout of the Granary House provide considerable flexibility for various development strategies, catering to the strong and ever-increasing demand for quality tourist accommodation in this sought-after region.

Additional Outbuildings & Grounds

Beyond the principal buildings, the estate encompasses approximately three acres of picturesque grounds, offering a sense of space and tranquillity. Within this expansive setting lies a substantial, two-story barn, currently utilised for storage purposes. This significant outbuilding presents a wealth of exciting potential for conversion into further high-quality holiday cottages, dedicated workshops for various pursuits, or other commercial ventures, all subject to obtaining the necessary planning consents. The sheer size of the grounds also provides ample space for the potential expansion of the existing campsite, the creation of additional leisure facilities to enhance the visitor experience, or the development of other tourism-related amenities, further increasing the estate's income-generating capacity and overall appeal.
